Detailed Action

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The phrase in claim 1(a), "do not comprise an optical signature," referring to the beads (as on page 9, lines 32-33 of the specification) on the substrate surface is construed to mean that the beads do not behave as or have attached dyes, fluorophores, chromophores, luminescent molecules, labels, markers and such (e.g. page 18, line 34 to page 19 line 7 of the specification).

Walt et al. (P/N 6,023,540) and Walt et al. (P/N 6,327,410) are the closest prior art of record however, these references both teach methodology using particles, microspheres, and such all which require the presence of optical signatures, thereon in the technology area as instantly claimed, in contrast to the absence of such an optical signature as in instant claim 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
